The District Attorney contended that a free and voluntary confession at any time or place was admissiable. It was simply a circumstance, a question, whether this was his handwriting.

By the Court—Was any inducement held out to this man when he was asked this question? A. It took place in the Chief's office, just about the time the prisoner was placed in my custody.

The Court did not feel at liberty to exclude the question, but thought it better to postpone till to-morrow morning, and some more light might be thrown upon the subject.

## FINANCIAL AND COMMERCIAL.

Wednesday, April 22—6 P. M.

There is a better feeling to-day, which is partly due to the non-arrival of the Secretary of the Treasury and partly to the intelligence from Europe. The Pessia, however, brought back a good many bills.

Money continues very easy indeed. To the brokers it is freely offered at 5 per cent, and many nouses will not allow over 4. The new debt certificates are again 1/2 higher. Money seems to be Sowing hither from every quarter.

Gold opened this morning, on the good news from the seat of war, at 144%, rose to 146%, sold in the afternoon at 147, %, %, 147, 146% and 147%, and closed at five P. M. at about 147%. Gold is in stronger hands than it was, and there is much less speculation than there used to be among the small street operators. Early this morning bills sold at 160; but later in the day the price was about 161, and at the close they were 162 a 1/4.

The stock market was much better to-day and the tone more buoyant. Harlem opened at 64, against 58 last evening, advanced on the Broadway Railroad ordinance to 75, reacted to 68, sold in the afternoon at 70, 68, 67, 69, and closed about 68. The short interest in this stock has been very large, and the bears have suffered very severely indeed. They seem, however, to be quite as anxious as ever to put out contracts. Hudson River likewise rose to put out contracts. Hudson liver likewise rose 4% per cent at the morning board, with very considerable activity; about one-half the sales were on sellers' options. Erie rose 34, Southern old 34, Pittsburg 34, Illinois 34, Toledo 334, Chicago and Northwestern 1, Minnesota Mining Company 134. The market does not move uniformly. Certain stocks appear to be in demand one day, and others the next; so that, on the long run, the whole market will probably be found to have advanced at the end of each month. Erie and Pittaburg, the cheap-est abares on the list, in view of their earnings, move upward very slowly. Governments were steady. At the one P. M. call of the public board the market was firm, and stocks were in good demand. In the afternoon the market was strong and the buying well distributed. Pittsburg advanced % and Eric %; Harlem was a shade lower; the rest of the market was firm. At the four P. M. call of the public board prices were well main-

The Secretary of the Treasury left Philadelphia this afternoon at two P. M., and will arrive here this evening. His friends do not seem to expect that he will take any steps which can interfere with the present liberal offering of money by the people, though other persons expect him to effer a loan. To-day \$2,000,000 were deposited here with the Sub-Treasurer on call at 5 per cent, and \$1,200,000 for conversions. Such enormous contributions of money to the support of a govern-

ment are unexampled in history.

The Harlem grant of the Broadway Railroad is the engressing topic of conversation in Wall street. Satisfaction is generally expressed at the defeat of the Albany schemers, who would not listen to Mr. Stewart's offer of \$2,000,000 for the grant. The Harlem company expect to pay about year to the city for the franchise, whi than double what A. T. Stewart offer The Africa took out \$34,212 in special
